

DADOQUARTZ BATH ON THE DRAWING BOARD

Introducing the Carmen bath and basin

this Australian-designed DADOquartz bath and basin will be available around the country through retailers in August 2010. With its square yet curved lines, the bath has a distinctly modern feel. The bath will be approximately 1700mm x 750mm x 580mm.

Dado has manufactured stone products since 1998 and is the original manufacturer of engineered quartz baths and basins throughout the world. The products have properties similar to well-known engineered quartz kitchen surfaces and are manufactured using state-of-the-art technology. It is stronger, more durable, cleaner,

safer, more consistent and holds temperature longer than natural stone.

DADOquartz is used to manufacture bathroomware and is uniquely appealing and comes with a 25-year warranty. DADOquartz can also be used outdoors and is UV stable. **LKB**
